

## Chassis vs. Magazine Compatibility

September 24, 2014

| Action Length | Magazine Type   | Common Magazine                       | Manufacturers Part # [Rounds]  | Compatible Calibers  | Suggested Usage   |
|---------------|-----------------|---------------------------------------|--|--|---|
| Short Action  | DSSF<br>±3.055" | Accuracy International<br>AICS Models | #6616 [10]   | 204 Rugger<br>223 Rem<br>6.8SPC<br>300 Blackout/Whisper                                | Light weight plastic magazine perfect for varmint rounds.   |
|               |                 |                                       | #3901 [5]<br>#3902 [10]  | 22-250 Rem<br>243 Win<br>260 Rem<br>6.5 x 47 Lapua<br>6.5 Grendel/Creedmoor<br>308 Win | Most common magazine on the market. AICS industry standard.   |
|               |                 | Accu-Mag<br>AICS Models               | #00100-0037 [10]   | 204 Rugger<br>223 Rem<br>300 Blackout/Whisper<br>6.8pc                                 | Solid metal magazine perfect for varmint rounds.  |
|               |                 |                                       | #00100-0007 [5]<br>#00100-0009 [10]<br>#00100-0041 [5]<br>#00100-0040 [10] | 22-250 Rem<br>243 Win<br>260 Rem<br>6.5 x 47 Lapua<br>6.5 Grendel/Creedmoor<br>308 Win | Alternative to the Accuracy International AICS Magazines. Strong and reliable metal magazine at affordable price. |
|               |                 |                                       | #00100-0006 [3]<br>#00100-0008 [7]   | 270 WSM<br>300 WSM<br>7mm WSM  | Magazine especially developed for the 300 Winchester Short Magnum cartridges. Also Fit 270WSM and 7mm WSM         |
|               |                 |                                       |  |  |   |
| Long Action   | SSSF<br>±3.715" | Accuracy International<br>AICS Models | #0479 [5]  | 300 Win Mag, 7 mm Rem Mag  | Most common magazine on the market for factory ammunitions.   |
|               |                 |                                       | #2468 [5]  | 338 Lapua  | Works fine with factory ammunitions but not with hand loads.  |
|               |                 | Accu-Mag<br>AICS Models               | #00100-0001 [5]  | 300 Win Mag, 7 mm Rem Mag  | Perfect for factory ammunitions.  |
|               |                 |                                       | #00100-0003 [5]  | 338 Lapua  | Works fine with factory ammunitions but not with hand loads.  |
|               | SSSF<br>±3.775" | Accu-Mag<br>AICS Models               | #00100-0004 [5]  | 300 Win Mag, 7 mm Rem Mag  | Improved magazine designed for hand loads with VLD bullets.   |
|               |                 |                                       | #00100-0005 [5]  | 338 Lapua  | Designed for the Remington Police .338 Lapua. Not a big seller.   |
|               | SSSF<br>±3.850" | Accuracy International<br>AICS Models | #4808 [5]  | 338 Lapua  | The perfect magazine for 338 Lapua Cartridge.   |
|               |                 | Accu-Mag<br>AICS Models               | #00100-0023 [5]<br>#00100-0022 [5]   | 300 Win Mag, 7 mm Rem Mag<br>338 Lapua   | Factory magazines for all Savage 110BA. The perfect magazine for hand loads.                                      |

**\*\*If the dealer plans to run Accuracy International AICS magazines in their chassis, Cadex suggest ordering the chassis in 3.055" for 308 Win, 3.715" for L/A calibers and 3.850" for 338 Lapua.**
