## 3M Hearing Solutions **Hearing through the noise**

### **3M™ PELTOR™ ORA TAC In-Ear Communications Headset**

Now there's a clear solution for workers who need to communicate effectively in noisy work environments.

The 3M™ PELTOR™ ORA TAC In-Ear Communications Headset features in-ear microphone technology that delivers voice messages when transmitting over a 2-way radio. Designed for extended wear in demanding conditions, this lightweight system eliminates the need for a boom microphone, making it adaptable to many industrial applications, including those where respirators are used.

## 3M™ PELTOR™ ORA TAC In-Ear Communications Headset

# Intelligent Hearing Protection for Improved Situational Awareness

ORA TAC is an excellent solution for workers who need to maintain hearing ability while wearing hearing protection. Two external environmental microphones feature a talk-thru functionality that naturally and clearly reproduces sounds and conversations from outside the headset back into the ear canal. And because workers don't need to remove the earplugs, hearing protection is not compromised.

### Lightweight, Compact Design

Can be worn with eye-wear, respirators, hard hats and welding helmets.

### Comfortable Hearing Protection

Soft earplug tips are comfortable and help protect workers from impulse and other hazardous noises.

### Communicate Clearly

No need to remove the earplugs and compromise hearing protection.

- ▶ In-Ear Microphone for communicating via two-way radio.
- ▶ Environmental Microphones for face-to-face conversations.

## 3M™ PELTOR™ ORA TAC Ordering Information

Product Number	3M ID Number	Product Description	Case Quantity
ORA-BASE-BB2*	70-0716-7432-2	In-Ear Communications Headset	1/Case

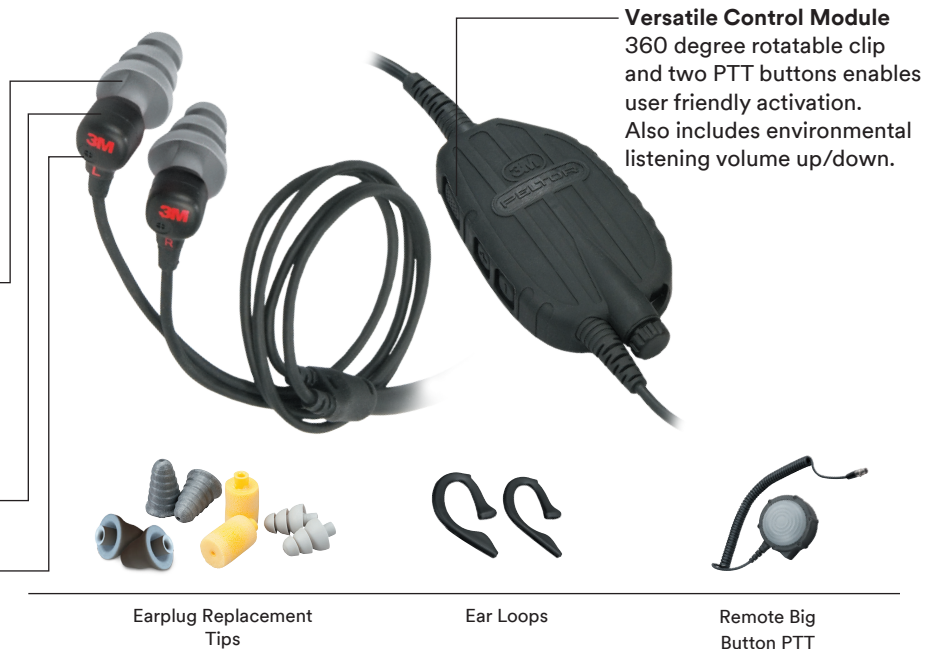

\* Includes 1 pair Classic, 1 pair UltraFit and 1 pair Skull Screw. Radio connector assembly sold separately—see below.

**NOTE:** 3M strongly recommends fit testing of hearing protectors. Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in hearing protector fit, fitting skill and motivation of the user. If the NRR is used, 3M recommends that it be reduced by 50% or in accordance with applicable regulations. 3M PSD products are for occupational use only.

**WARNING:** These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor, User Instructions, or call 3M in U.S.A. at 1-800-665-2942. In Canada, call Technical Service at 1-855-484-3093. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.
